. Description

- Name: KAMARA Ierapetra olive oil (Bio certificate applied for. Inspection in progress)
- Origin: Greek OLIVE OIL FROM THE HILLS OF DIKTI, IERAPETRA, CRETE, bottled in Kamara
- Olive type: Koroneiki
- Quality: Native Olive oil Extra or Native Olive oil
 - Comparisons can be found on the German olive oil information society website www.olivenoel-info.de
- Percentage of fatty acids (calculated as oleic acids): 0.3 – 0.6%
 - Olive oil that is fit for consumption may have an acidic content of up to 3% (content of free fatty acids, oleic acids, in max. grams per 100g olive oil).
 - Oil in quantities of less than 2 Tons is normally delivered unfiltered. At first unfiltered olive oil stays cloudy for a while. The sediment then settles at the bottom of the container. It is completely harmless.
- Container: 0.5L, 0.75L
 - Aluminium oxidation free (Storage at least 2.5 years)
 - Dark Bottle (Storage 18+6 Months in a cool/dry place)
- Analysis certificate: 0.39% acid content in 2005 (permitted <1.0)
